

CHALLENGE »

The Red Cross needed to consolidate its Virginia and California facilities to operate out of just one warehouse.

SOLUTION »

PeakLogix provided portable stacking frames and a 2-story pre-fabricated office enclosure to utilize their Lorton, VA facility more effectively.

RESULTS »

By internally expanding the Lorton, Virginia Red Cross facility the Red Cross was able to close its California facility and reduce the number of employees needed to perform an assigned task.

Specs »

- 30'x 100' two-story office; 18' high.
- Special HVAC and power requirements for the building.
- Flooring, workstations, shelving were all included.
